It's just one of the ways we help you protect all the things you've worked hard for, including your vehicle.

### Limits and exclusions

Coverage is subject to deductibles, limits and exclusions. The contract covers repairs only of covered parts and only when they suffer a breakdown as defined in the contract. Under some circumstances, a breakdown of a covered part may not be covered (for example, failure due to misuse or lack of proper maintenance or when a non-covered part is what caused the covered part to fail). Also, the exclusions contain a list of parts not covered, some of which may be associated with a covered part (for example, brake drums, pads and rotors; exhaust pipes, mufflers and catalytic converters; and body and trim items). Please see the service contract for details.

# A reliable range of coverages with your needs in mind.

## Wrap coverage

Factory and/or dealer powertrain warranties are limited to major components. Wrap coverage is an exclusionary level of coverage that is designed to “wrap” around factory and/or dealer powertrain warranties protecting many of the other vehicle components, subject to specified exclusions. A complete list of exclusions appears in the contract. Since the factory and/or dealer powertrain warranty covers the powertrain portion of your vehicle, wrap coverage does not cover the following component groups:\*

- Engine
- Transmission
- Turbocharger assemblies
- Transfer case
- Supercharger
- Front & rear drive assemblies
- Related seals & gaskets

\* The term of your wrap coverage may not coincide with the term of your factory and/or dealer powertrain warranty.

## Additional plan benefits\*
